

Theological Educator

Have you ever thought about what it would be like to help someone else, answer God's call to the ministry?

If you have a Theology degree and a background in education, you may be just what the Montevideo, Uruguay team is looking for.

Come and work in a local seminary, and at the Training Center that is being built, currently. This field can use your gifts, to develop material and teach classes to Christians of various denominations, seeking to further their theological education.

Strong Bible teachers are needed on all fields,

but especially in Uruguay, which is one of the least evangelized countries in South America. There is a real effort on the part of this SIM team to reach out to Christ's Church and equip them with what they need to be strong teachers themselves and make doctrinally sound disciples. You can be a part of what God is doing here!

Each position has an internship period where missionaries are assigned a mentor in an established ministry. After a time of acclimating to the culture and language acquisition, each candidate will develop a proposal for a long term ministry and have it approved by the team leader. If you have experience in the classroom, and a heart to help others grow in the Word, this may be just where the Lord is leading you.

Language-Spanish

Competency required (training is available).
